Your Heart Rate Training Zone

Cardiovascular Exercises.

Exercise Order	Picture	Equipment	Time / Distance / Calories	Intensity	Coaching Points
		Treadmill			• Try to maintain a tall, straight and neutral posture. Try to walk or run in the centre of the bed
		X-Trainer			• Place feet centrally on foot plates. Try to avoid excessive rotational movement from your waist
		Stepper			• Try not to support body weight on arms. Try to maintain a smooth rhythm, with medium to larger steps
		Bike			• Try to maintain neutral spine. Try to maintain a stationary upper body and all the applied force from smooth, circular movement
		Recline Bike			• Ideally maintain a 15 degree bend at the knee. Try to maintain a stationary upper body and all the applied force from smooth, circular movement
		Rower			• Always try to maintain a neutral spine, keeping the hips and knees in alignment

Pin-Loaded Exercises.

Exercise Order	Picture	Exercise	Sets / Reps	Weight / Intensity	Coaching Points
		Lat Pulldown	/		• Pull bar down to chest • Try to keep the wrists straight
		Leg Press	/		• Feet hip width apart • Start with a 90 degree angle at the knee
		Leg Curl	/		• Feet hip width apart • Try not to arch the back
		Shoulder Press	/		• Try not to lock the elbows out • Keep breathing! Try not to hold your breath
		Tricep Pushdown	/		• Stand tall, try not to lean onto the bar • Keep your elbows close to your body
			/		
			/		

Free Weight Exercises.

Exercise Order	Picture	Exercise	Sets / Reps	Weight / Intensity	Coaching Points
		Dumbbell Bench Press	/		• Try not to arch your back • Try not to lock out your elbows
		Flat Flyes	/		• Maintain a small bend in the elbows throughout the exercise • Try not to let your weights crash together
		One Arm Row	/		• Try to keep your back straight • Try to keep your shoulder isolated
		Walking Lunges	/		• Take very large steps • Ensure your front knee doesn't go past your toes
		Calf Raises	/		• Stand with feet shoulder width apart & toes pointing straight forwards. Keep knees straight
		Lateral Raise	/		• Wide stance and knees slightly bent • Maintain a small bend in the elbow
		Bicep Curl	/		• Feet shoulder width apart, knees slightly bent & back straight. Avoid swinging weights or arching back
			/		

Core Exercises.

Exercise Order	Picture	Exercise	Sets / Reps	Weight / Intensity	Coaching Points
		Crunches Mat/Ball	/		• Ensure your lower back is fully supported on the ball. Try to keep your hips and legs still throughout
		Plank	/		• Maintain balance between forearms and toes. Keep a straight line from shoulders, across your back to feet
		Side Bridge	/		• Elbow directly below shoulder • Maintain a straight line from neck to feet
		Supermans	/		• Raise only a few inches • Keep the back still throughout
			/		

Cool Down
